# Building a Powerful Grants Strategy for 2016-17

Presented by:  
Cynthia M. Adams, CEO, [GrantStation.com](http://GrantStation.com)

# Learning Objectives

To clarify which project(s) need grant support in 2016-17.

To create and maintain a grants calendar for 2016-17.

**Today's  
Webinar**

To establish a consistent process for grants research.

To determine how to generate a grants strategy for a particular project

# Today's Agenda

 Design and adopt a Grant Decision Matrix

 Develop project description(s)

 Identify the right grantmaker(s)

 Create a grants strategy

 Establish your 2016-17 Master Calendar

**Please ask  
questions as we  
go along!**

# Establish your own process

It's not the tools, it's how you use them.

“There seems to be some perverse human characteristic that likes to make easy things difficult.” – Warren Buffett

# Grant Decision Matrix

Should we apply for that grant?

- Apply the Matrix to RFP's and application guidelines
- Build the matrix in any spreadsheet program
- Establish basic **criteria** and **weights**
- Agree on a 'green light' / 'red light' **score**

Refer to Grant Decision Matrix (pages 1 – 3)

# Grant Decision Matrix

## Basic components

**Criteria** – develop a set of decision criteria

- Timing
- Credibility
- Relationship
- Pre-proposal work required

**Weights** – assign a weight to each criteria

- Negative
- Neutral (“0” weight)
- Positive

Know when the  
balance shifts one  
way or the other.

**Scores** – rate each opportunity

Know when the  
balance shifts one  
way or the other.

# Grant Decision Matrix

## A sample

Criteria	Weight
<b>Subjective</b>	
Relationship with grantmaker	4
Complements grantmaker's goals	3
Builds on organization's mission	5
Likelihood of award	3
Competition for award	0
<b>Objective</b>	
Eligibility	5
Serves community	4
Serves targeted population	4
Sufficient funds to meet need	3
Matching funds required	0
Administrative costs allowed	3
Adequate time to respond	3
Required outcomes achievable	1
Audited financials required	5
Project plan prepared	5
Partners required	0
<b>Total Score</b>	<b>49</b>

### Key

0 = neutral

1 - 5 = positive

-1 - 5 = negative

### Apply =

score of 35 or higher

### Do not apply =

score of 34 or lower

**Don't bite off  
more than you  
can chew!**

can chew  
more than you  
don't bite off

**Want to see a sample?**

# Good starting point!

## Non-scored Criteria

<b>MANDATORY CRITERIA</b>	<b>Prospective opportunity must meet ALL of these minimum criteria in order to be considered for pursuit. No points assigned to this section.</b>						
<b>Eligibility Criteria met for:</b>							
Organization type	501 c3 nonprofit, etc.					Yes	No
Geography	national, regional, local, etc.					Yes	No
Agency size/scope/budget	sometimes foundations limit the agency budget size.					Yes	No
Project serves target community	usually underserved or low-income					Yes	No
Project serves target population	minority, low-income, children, families, teens, etc.					Yes	No
<b>Mandatory Criteria Met? If yes, proceed to next section.</b>						Yes	No

# Second Step Scored Criteria

**Do not pursue = <15  
points**

**Requires Leadership Approval = 16-19  
points**

**Pursue = >20  
points**

SCORED CRITERIA	Negative			Neutral	Positive		
	-3	-2	-1	0	1	2	3
1 Relationship with Grantmaker	Funded in past, but not managed well	Gives only to preselected organizations		None	Yes - introductory only or invited to apply	Yes - has funded at least 1 proposal	Yes - has funded multiple and/or multi-year grants
2 Fits with Starfish's mission and Inkster Early Childhood Plan vision	Not within Current Inkster EC Plan and/or Target Budget Items	Emergency Need	Not within early childhood plan but important to building relationships/ community (e.g. Ford Volunteers)	Not w/in Early Childhood Plan but will be budget-relieving and/or opportunistic to expand	Budgeted funding need within Early Childhood Plan only	Budgeted funding need within Early Childhood Plan and current FY Budget targets	Unrestricted OR eligible to meet a matching grant (e.g. SIF/Baby Power)
3 Likelihood of award	Highly Unlikely	Not very likely	Not likely	Unknown	Somewhat Likely	Likely	Very Likely
4 Competition for award	Very competitive - national competition	Competitive - statewide w/out previous funding	Competitive - statewide (with previous funding)	Unknown	Regional	Metro Detroit only	Inkster included in RFP guidelines
5 Adequate time to write proposal	<1 week	<2 weeks	<3 weeks	4 weeks	5 weeks	6 weeks	7+ weeks

# Create your own template!

## Weighted factor decision matrix – no cost via Excel

	Cat Wt	Weight	Option 1	Option 2	Option 3	Option 4
Category 1						
Factor 1						
Factor 2						
Category 2						
Factor 3						
Factor 4						
Factor 5						
Category 3						
Factor 6						
Factor 7						
Factor 8						
Category 4						
Factor 9						
Factor 10						
Factor 11						
Factor 12						
Total						

**Instructions:**  
Add factors to the decision in column H (for a job, this might be candidate, pay, etc.)  
Make sure you copy formulas if you add rows.  
Change weights so that they add to 100 (see below cell weight column)  
This forces you to understand how important these elements are to you relative to each other  
For chosen my weights and scores for job/option job options  
Fill out green areas with scores from 1-10  
Note for negatives, reverse your thinking (so a high score on a negative like risk means it's NOT risky)  
Don't cut out candidates to help guide your weighting  
Note that as you do, the weighted averages are shown on subtotals and absolute totals along the bottom.  
Scrolling scores are shown at the bottom of each option

Winner

- This spreadsheet helps you **make complex decisions** in which there are multiple options and multiple factors to consider.
- You **weight** the importance of the factors and **score** your options vs. those factors.
- It computes a weighted sum and shows you which option, given all the factors, wins.

“My supervisor (our Chief Development Officer) is super-excited about having this tool. Our goal is to present this to our CEO/Leadership Team in the next few weeks for final approval – this would mean that any prospective proposal would go through this (matrix) before being pursued.”

Avery Eenigenburg  
Corporate/ Foundation Specialist  
StarFish Family Services  
Inkster, MI

# Grant Decision Matrix

Should we apply for that grant?

No, not now

Needs further  
consideration

Yes, move forward

Leadership approval for this process is key!

# Where are we?

~~Design and adopt a Grant Decision Matrix~~

Add details

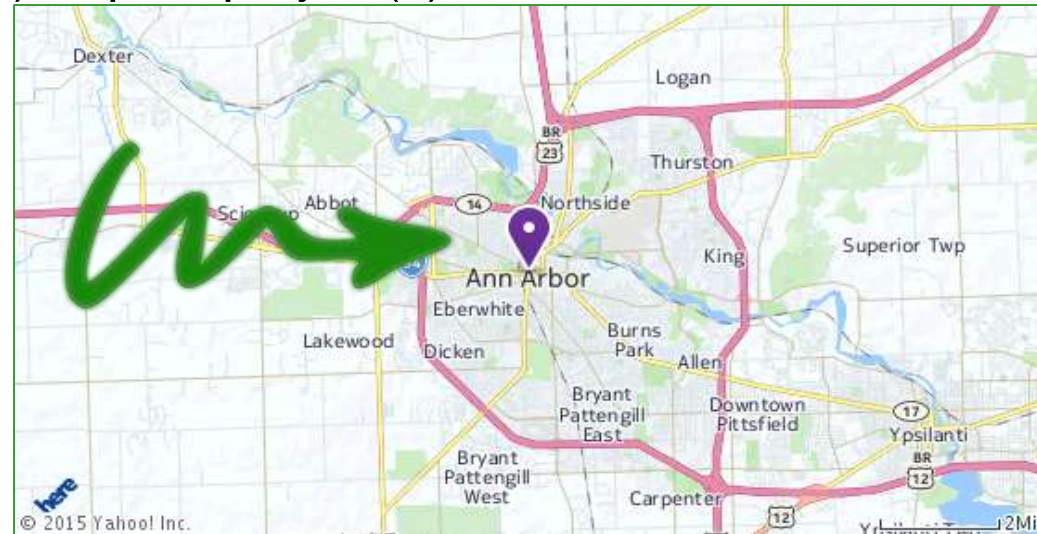

Connect your team to the worksheet

# Project Description Worksheet

## Components

- Project name (working title)
- Lead contact person (or team) overseeing the project
- Proposed project (short, narrative format)
- Need(s) to be addressed/ problem(s) to be solved (narrative format)
- Relationship to larger project(s) or past project(s)
- Project budget (summary)
- Key words for research:
  - Geographic focus
  - Areas of interest
  - Target population
  - Types of support

Refer to [Grant Research Worksheets \(pages 4 – 5\)](#)

# Project Description Worksheet

## Sample: Basic description

**Project:** Food Bank: Capacity Building

**Lead:** Mary Jane Hoffman, Executive Director & Jamie Smith, FR Committee Chair

### **Project description**

Every day the volunteers pack and deliver between 30-50 food boxes. Each "box" contains at least 20 pounds of food per person and is enough food for three days. Last year the Food Bank served over 27,000 clients and distributed 1,392,000 pounds of food with the help of 16,700 volunteer hours. Collection of this donated food was streamlined in 2014 when the State Department of Transportation donated two used delivery vans. The regular delivery of food and household items is crucial to a well functioning food bank, but as important is making those items easily available to those in need.

The **facility upgrade** project will allow the Food Bank to add **delivery ramps, storage space (walk-in cooler and freezers), shelving, and a computer system** to track donated items. This space, will in turn, allow staff to streamline the delivery and sorting of critical food items in case of emergencies (natural or man-made disasters). New processes and procedures will be adopted to facilitate the growth of the Food Bank, as well as **staff training** to learn new systems.

To compliment the new facility, provide a new level of community engagement, and address our mission of providing individuals with the necessary skills and tools to alleviate hunger, the Food Bank will be adding a **community garden**. The garden will provide a leverage point to help teach good **nutrition** and educate the low-income residents on growing their own food. The garden will provide a **playground** for families with children.

# Project Description Worksheet

## Sample: Basic description

### **The Day-to-day Need**

The problem isn't finding the groceries to package and give away, nor a method for picking up the donated items, but rather the facility used by the Food Bank volunteers for sorting, storing, and distribution of the food. Currently, the space being used has no delivery platform, inadequate storage space, and the area for sorting items is 12 X 16 with limited counter space. In addition, the process and procedures used are cumbersome and add a level of inefficiency that makes retaining volunteers difficult.

Not only the work space and the processes need to be addressed but also the lack of **leadership** in the volunteer program. A **full time Volunteer Coordinator** that could work with volunteers on a consistent basis would .....

### **Breaking the cycle of poverty**

As critical as the day to day delivery of groceries and household items, is the need to teach those we serve how to prepare, plant, and grow a **garden** so they can become at least in part, a piece of the solution. There is over an acre of tillable land available on the side of the Food Bank where a community garden can be developed. Right next to the garden we will build a **playground** so families with children can . . .

### **Relationship to past project**

The donation of the two used delivery vans in 2011 provided a glimpse of how the Food Bank could streamline systems. The vans allowed the Food Bank to expand the collection of food, adding 14 regular donors to the program in the first three months of their use. The new procedures for picking up donated items, especially those that need immediate . . .

# Project Description Worksheet

## Budget summary

The total estimated budget for this project is \$378,100.00 includes building plans, the addition, walk-in freezers and cooler, and loading ramps. A new software program and several new computers, as well as internet upgrade costs are noted. Gardening equipment and supplies round out the capital costs. A full time Volunteer coordinator and staff training is also included.

Addition, playground & garden design	\$ 3,000.00
Building permit	\$ 300.00
Loading ramps	\$ 60,000.00
Sorting & storage rooms	\$180,000.00
Walk-in freezers/cooler	\$ 77,000.00
Software / hardware / training	\$ 7,200.00
Gardening equipment/ tools (Lowes)	\$ 1,800.00
Playground equipment (Miracle)	\$ 14,800.00
Volunteer Coordinator (FT)	\$ 35,000.00
<b>Total Estimated Budget</b>	<b>\$378,100.00</b>

# Project Description Worksheet

Identify key words

4. Type of support

**Explore the options!**  
Delve deeper into each specific area and uncover new search criteria.

1. Geographic focus

2. Areas of interest

3. Target population

Answer these four questions . . .

# Project Description Worksheet

## Geographic focus

Distinguish between where you are located . . .

This broadens my geographic scope! Our services impact a broader area than just the County.

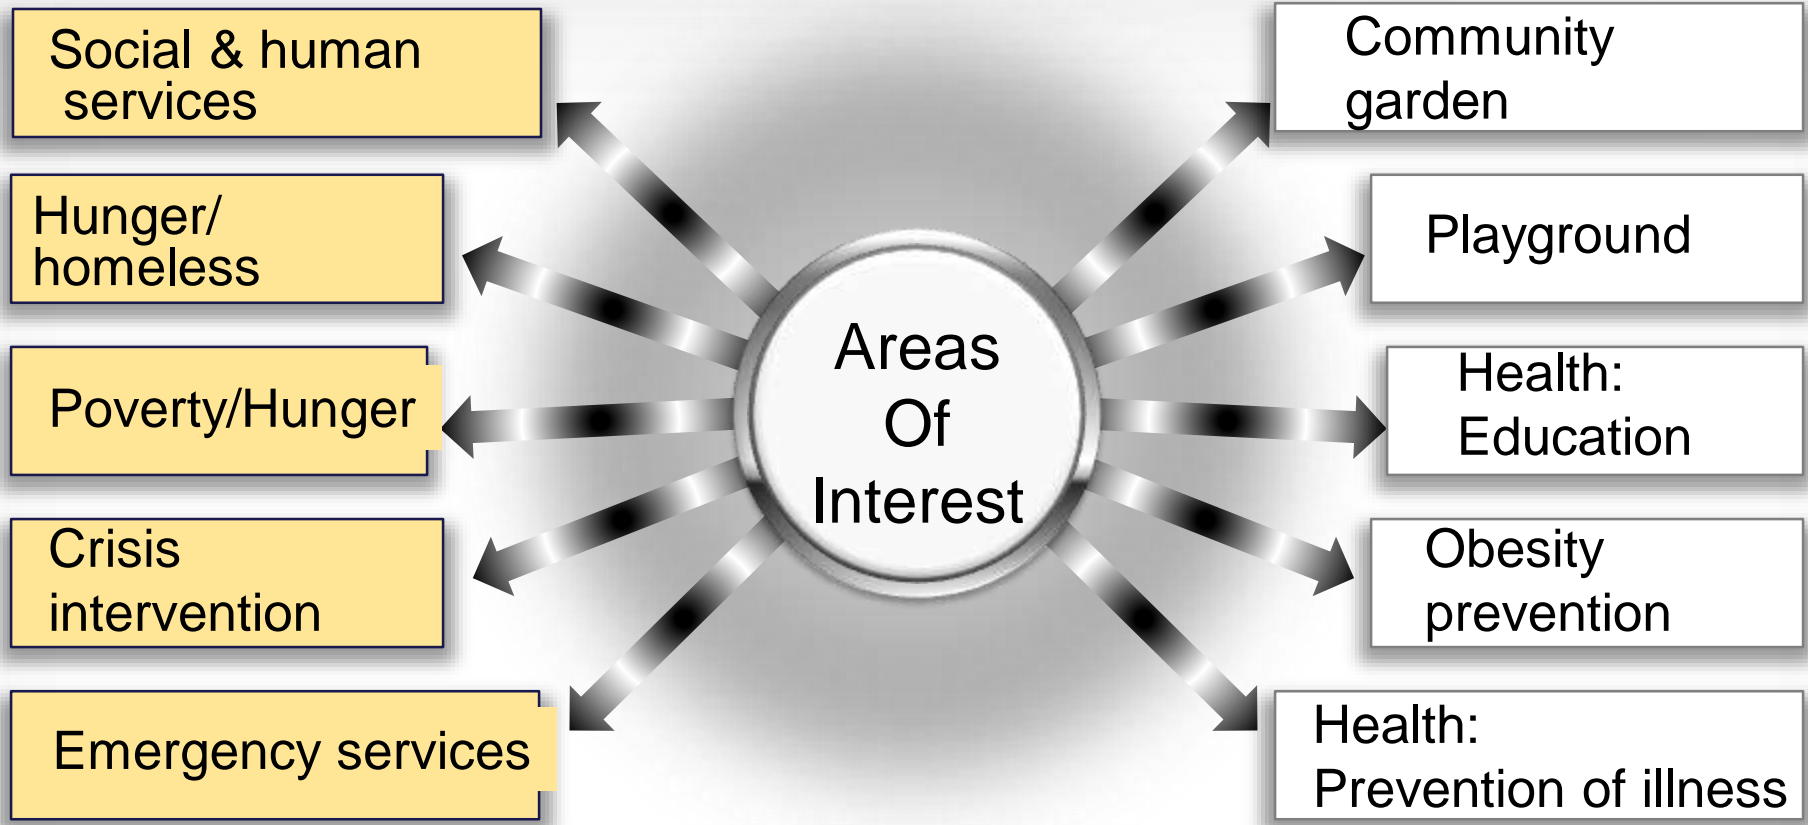

and the impact of your services.

1. What is the geographic focus of this project?

# Project Description Worksheet

## Areas of Interest

2. Which areas of interest are we addressing with this project?

# Project Description Worksheet

## Target population

### 3. Is there a target population?

Poverty/ low income  
population

Families, women  
and children

Seniors / elderly

# Project Description Worksheet

Type of support

## 4. What type of support do we need for this project?

Project Support

Project Planning

Software/hardware

Building & equipment

Capacity building

**\$378,100.00**

Bulk of your request is for capacity

# Where are we?

~~Design and adopt a Grant Decision Matrix~~

~~Develop project description(s)~~

Identify the right grantmaker(s)

Create a grants strategy

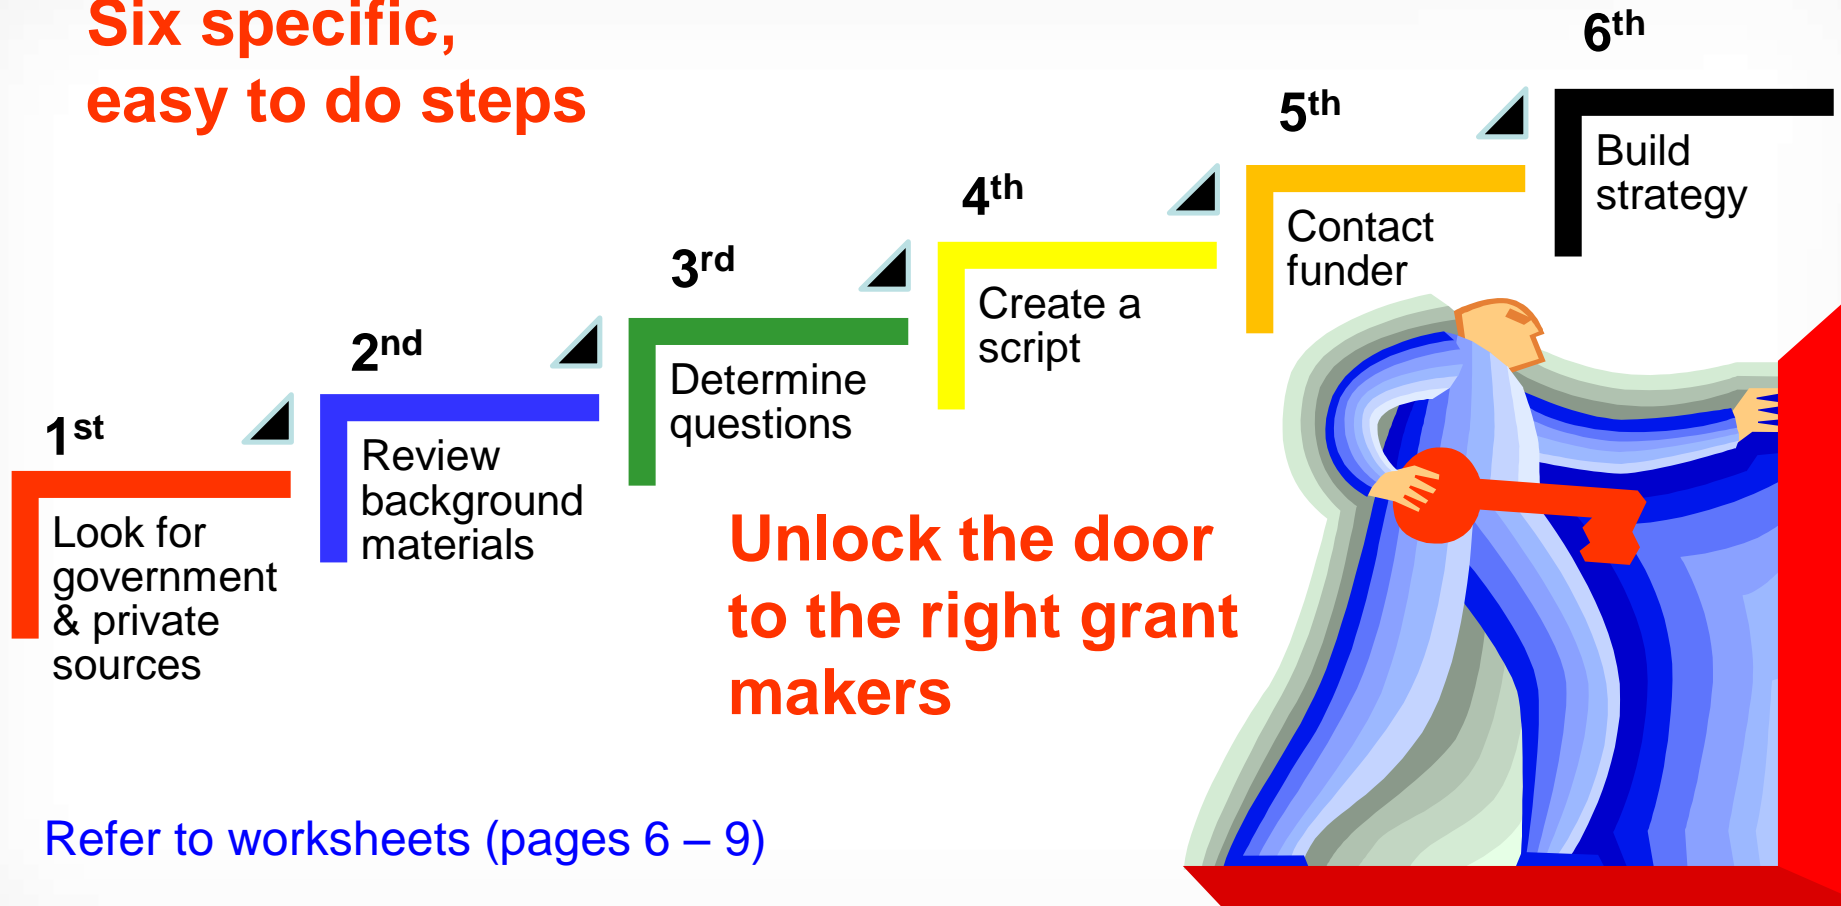

Establish your 2015-16 Master Calendar

Please ask questions!

# Apply a consistent research method

**Six specific,  
easy to do steps**

Refer to worksheets (pages 6 – 9)

# Grants Research Step One

Cash
Products & Services
Technical Assistance

Check out government funding

Federal  
State  
Local

## Research private grantmakers

- **Foundations** (regional, national, global)  
Family Trusts, Community Foundations
- **Corporations** (local business, regional, national, global)
- **Religious grantmakers** (cross denominations)
- **Associations and clubs** (local, statewide, national & international)
- **Giving Circles**

# Grants Research Step One

**Start here**

**Is there technical  
assistance  
available?**

**Are there product  
donations I can  
use?**

Innovative ideas occur when we leave our comfort zone, or when we break the rules.

# Grants Research Step One

Who provides insurance for businesses and people in our community?

**Example**

### **American Family Insurance**

Company supports organizations that provide housing, food, and shelter

### **Farmers Insurance**

Gives to health and human services

### **Nationwide Insurance**

The Foundation partners with organizations that help at-risk youth and families in poverty situations who need tools and resources to advance their lives.

Always consider religious grantmakers

**Example**

### **Presbyterian Hunger Program**

Supports programs that provide food relief to poor people. Projects that help feed or house an especially underserved constituency.

Be sure and check all of your existing vendors

Who do we bank with?

Who provides our utilities?

Who provides our insurance?

Do we pay rent or mortgage, and to whom?

# Grants Research

## Step One

**Giving circles** represent an emerging trend in which groups of individual donors collaborate to support individuals, charitable organizations or projects of mutual interest.

### **The Giving Circles Network**

This website is helpful if you want to learn about forming grassroots philanthropic initiatives in your community.

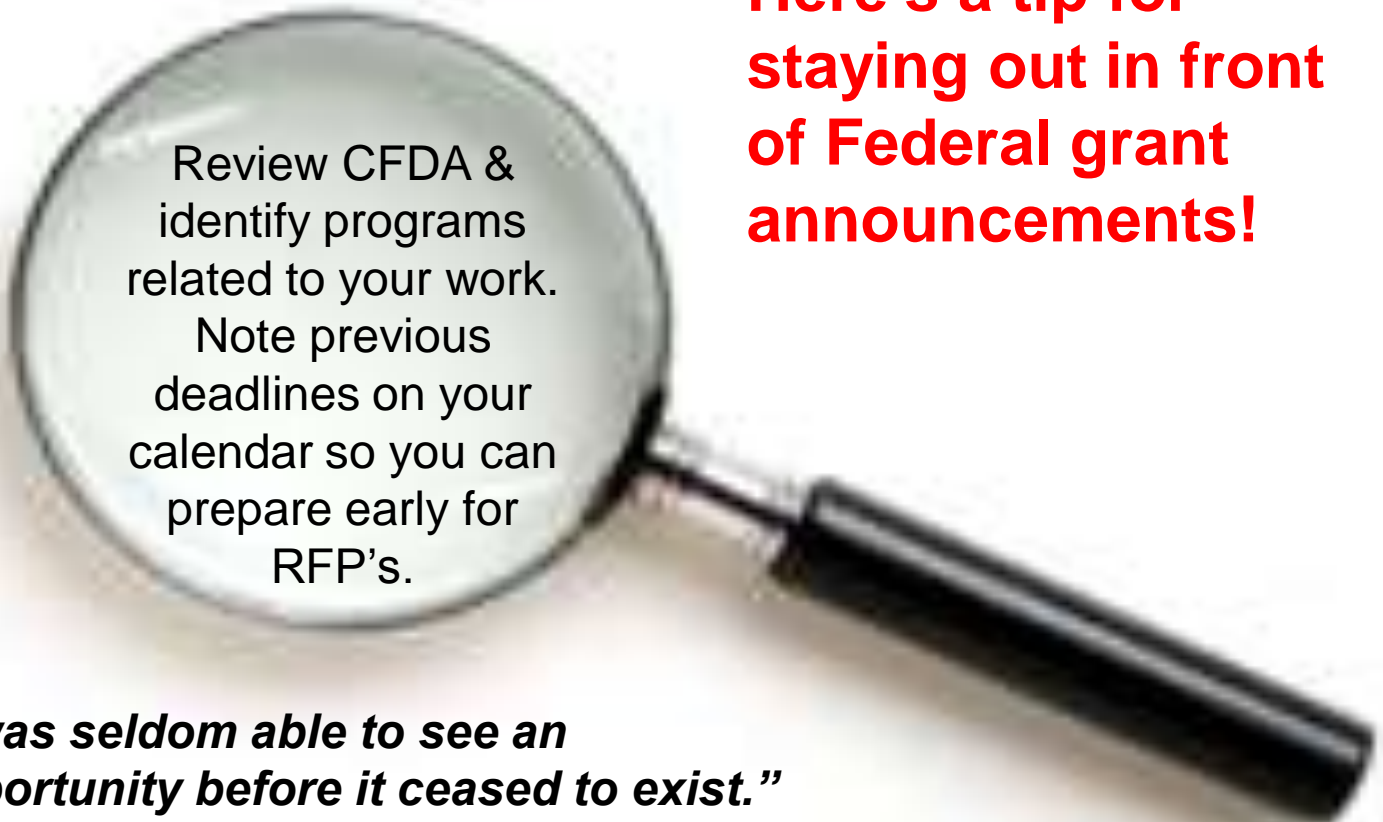

### **The Giving Circles Knowledge Center**

If you're interested in learning more about giving circles or starting one yourself.

At **Impact100 Philadelphia**, more than 200 women, ages 30 to 80 (although most are in their 40s and 50s), donate \$1,000 each and pool their contributions to make at least one grant of \$100,000 annually to nonprofits they collectively choose from each year's contributions.

Is there a Giving Circle in your community?

# Grants Research Step One

Review CFDA & identify programs related to your work. Note previous deadlines on your calendar so you can prepare early for RFP's.

**Here's a tip for staying out in front of Federal grant announcements!**

***"I was seldom able to see an opportunity before it ceased to exist."***

**- Mark Twain**

# Grants Research Step One

Create a list of all the private grantmakers who do not have a deadline so you can weave them into your strategy at critical stages.

**Here's a tip for sorting through potential grantmakers**

***“Without leaps of imagination or dreaming, we lose the excitement of possibilities. Dreaming, after all is a form of planning.”***

Gloria Steinem

# Grants Research: Steps Two & Three

## Review and eliminate

### First Cut

Deadline date(s)  
Average grant award  
Geographic focus  
Areas of interest  
Types of support

### Second Cut

Who have they given to in the past year?  
  
Have they funded a project similar to ours?  
  
Apply the Grants Decision Matrix

## Develop questions

- *Can they share with you the review process?*
- *Should the proposal be written for reviewers with technical or non-technical backgrounds?*
- *As a first time applicant, should you ask for a less amount then average?*
- *Can they tell you the probable award announcement date?*
- *What are the most common mistakes in the proposals they receive?*
- *Are there unannounced programs or unsolicited funds available to support your project?*

# Grants Research: Steps Four & Five

## Create a script

Let the funder know, right up front, that you have **done your homework** and have just a few specific questions to ask before you develop an application.

- **Don't** ask questions that are already answered in their published materials.
- **Do** introduce yourself, your role, and one or two sentences about your organization.
- **Don't** give them a lot of information about your organization or project at this juncture.

## Engage the grantmaker

Contact via email or phone

Don't go off script!

If you are writing an email, make it short and easy for them to answer specific questions.

**Subject:** Two quick questions

If you are calling, tell them exactly how much time you need (5 minutes, 10 minutes, etc.) and stick to it.

# Where are we?

~~Design and adopt a Grant Decision Matrix~~

~~Develop project description(s)~~

~~Identify the right grantmaker(s)~~

Create a grants strategy

Establish your 2016-17 Master Calendar

**Please ask  
questions!**

# Create a grants strategy

There is a difference . . .

Small Changes

&

Strategic Changes

“Strategy is about making choices, trade-offs; it's about deliberately choosing to be different.”

- Michael Porter

# Create a grants strategy

## Step Six

- Goal-oriented
- Fact-based
- Multiple alternatives

- Circles back to the Grant Decision Matrix
- Secure support on your strategic approach
- Keep the plan flexible and adaptable

***Your objective is to build a successful grants program, step by step, over time.***

- Strategy is an elaborate plan of action. Effective strategy relies on in-depth research, and an understanding of the grant makers intentions.*
- Strategies evolve and change over time. With the right strategic grants approach in place, your tasks gain more clarity allowing for sound decision-making.*

**Refer to Grant Strategy Worksheet  
(page 10)**

# Create a grants strategy

## Step Six

Collaboration is no longer an option for grantseekers – it is now a necessity.

“... you can form consortiums and apply for grants as it is more attractive to go after these funds as a group. I have formed consortia as small as two districts and as large as 21 school districts. It works!”

Jane Erickson  
DEVO Consultants Detroit

Collaboration  
is the new  
Competition

Competition

is the new  
Collaboration

works!

Jane Erickson  
DEVO Consultants Detroit

# Create a grants strategy

## Step Six

### Build several sets of collaborative partnerships

Four regional  
Food Banks &  
four churches

Hospital and 6  
regional clinics

Local  
Businesses

Cooperatives  
(farmers market, food  
coop)

*Agile, connected - small is often where the power lies to create real change.”*  
– Hildy Gottlieb, *Creating the Future*

# A possible grant strategy

**Tip! Posting your strategy to fund a project on your web speaks to transparency**

# Summary of the strategy

Think of strategy not as something set in stone, but rather a framework you can use to work out how to respond to a rapidly changing external environment.

- Build several collaborative partnerships: the Farmers Market, school district, etc. to expand the field of potential funders.
- Identify and secure planning funds (either via TA or cash grants) using the partnership(s) as leverage.
- Secure local support (even if it is minimal) using the planning documents as the request.
- Identify potential product donations and weave them into the overall plan where leverage points may be critical.
- Apply for larger cash awards using the support garnered to demonstrate credibility. Take the planning grant and develop it into a detailed grant request.

# Where are we?
